RESEARCH EXPERIENCE

PhD Dissertation (advised by Daisuke Nagai)

Aug 2023 - present

- **Probing the Physics of the CGM & Cosmological Tension with FRBs: Insights from CAMELS:**
Exploring the potential of using fast radio bursts to constrain astrophysical feedback effects on galaxy evolution and cosmology with the CAMELS project.
- **Quantifying Baryonic Feedback on Warm-Hot Circumgalactic Medium in CAMELS Simulations:**
Quantifying the energetics of AGN and SNe feedback and the effect on halo properties such as the CGM gas fraction. Co-mentoring Theory Project by Chloe Neufeld with Daisuke Nagai
- **Cold Streams: The Umbilical of High-z Galaxies (co-supervised by Frank van den Bosch):** Developing high-resolution zoom-in simulations to study the interaction of cold streams feeding star-forming high-z galaxies with the circumgalactic medium.

AGN Classification with Modulos

Aug 2022 - Sep 2023

- **Observational Project with Meg Urry:** Used Modulos (machine learning software) along with AGNDB to develop algorithms to classify AGN.

Electron Acceleration in Simulations of Collisionless Shocks

Jun 2020 - May 2021

- **Senior Thesis with Anatoly Spitkovsky:** Studied electron acceleration in simulations of collisionless shocks. Developed methods for visualizing particle reflection and acceleration using Paraview and Python. Participated in the Princeton Astrophysics Undergraduate Summer Research Program.

Analysis of Vertical Structures of Edge-On Galaxies Using HSC-SSP

Feb 2020 - May 2020

- **Junior Paper with Jenny Greene:** Identified sample of edge on nearby galaxies. Using imaging techniques and model fitting, investigated the diversity of vertical structures and connection to galaxy formation and evolution.

Dispersion Measure Distributions of Fast Radio Bursts

Oct 2019 - Jan 2020

- **Junior Paper with Renyue Cen:** Used simulation data to calculate the dispersion measure of FRBs, considering redshift, phases of gas, and contribution of the IGM.

FELLOWSHIPS AND AWARDS

American Astronomical Society International Travel Grant (\$1000)

2024

NSF ACCESS Computing Grant (Co-PI) with Daisuke Nagai (PI)

2024

- **Title::** Simulating Cold Gas Streams Feeding High-Redshift Galaxies
- **Allocation:** 300k Stampede3 node hours (equivalent of \$62k)

Yale Graduate Student Assembly Conference Travel Fellowship (\$800)

2024

Yale Graduate Student Assembly Conference Travel Fellowship (\$800)

2023

APS Division of Astrophysics April Meeting Travel Grant (\$300)

2023

American Astronomical Society FAMOUS Travel Grant (\$1000)

2023

Dean's Emerging Scholars Research Award, Yale University (\$2000)

2022

SACNAS NDiSTEM Conference Travel Fellowship (\$1000)

2022

ACTIVITIES AND OUTREACH

First-Year Astronomy Buddy (FAB) Mentorship Program

Aug 2024 - ongoing

- **Mentor:** I am a mentor to a first year graduate student in the Yale FAB program, serving as a contact point for help with transitioning into the program and an advocate in the case of any issues.

Yale SACNAS Chapter (YSACNAS)

Jan 2023 - ongoing

- **Co-President, Secretary and Treasurer:** In charge of communications, and managing funding. Assist in event planning.
- **SACNAS New England Community Gathering Organizing Committee Member:** I am a member of the organizing committee for the upcoming SACNAS regional one day conference that YSACNAS will lead and host in April 2025.
- **Recruiter:** Recruiter for Yale Astro at NDiSTEM, 2022 and 2023

Yale Cosmology Seminar

Sep 2023 - ongoing

- **Co-Organizer:** Invite and host weekly speakers. Facilitate seminar.

Leitner Family Observatory and Planetarium at Yale

Feb 2023 - ongoing

- **Presenter:** Present to and assist in monitoring school visits to the Planetarium.
- **Leitner Planetarium Spanish Night:** Creator and organizer of Spanish Public Nights at Leitner Planetarium (including Planetarium shows and telescope viewing), targeted towards the Spanish-speaking community in New Haven.

Science in the News

Oct 2022 - May 2023

- **Presenter:** Present short talks on exciting science topics at local libraries and schools.

Yale Astronomy Siblings

Sep 2022 - present

- **Graduate Student Mentor:** Paired with undergraduate astronomy student as a mentor for advice including on research experiences and graduate school applications.

Astronomy Climate and Diversity Committee

Sep 2022 - present

- **Member:** Working on putting together report of best practices for graduate school admissions interviews

PROFESSIONAL SOCIETIES

Society for the Advancement of Chicanos/Hispanics & Native Americans in Science American Astronomical Society (AAS)

Sep 2021 - present

Sep 2021 - present

Yale Women in Physics (WiP)

Sep 2021 - present

Princeton Undergraduate Women in Physics (PUWiP)

Apr 2018 - May 2021

- **Co-President (2020):** Planned Junior Paper Symposium and spearheaded formation of mentorship program for local high schools

TEACHING EXPERIENCE

Eduexplora Yale Summer Session

July 2023

- **Instructor:** Developing two week intro to astronomy course that will be taught to Latin American high school students, visiting Yale through the Eduexplora program.

Teaching Fellow - ASTR 120: Galaxies and the Universe, Yale

Jan - May 2023

Teaching Fellow - ASTR 160: Frontiers and Controversies in Astrophysics, Yale

Sep - Dec 2022

Teaching Fellow - ASTR 180: Introduction to Relativity and Black Holes, Yale

Jan - May 2022

Teaching Fellow - ASTR 110: Planet and Stars, Yale

Sep - Dec 2021

Integrated Science Curriculum Tutor, Princeton

Sep 2018 - May 2019

SKILLS

Technical: Java, Python, Javascript, C, MATLAB, HTML, Paraview

Language: Native Spanish speaker; Intermediate Russian
